AMFLite II

Made in the USA from the finest grade of hard maple, 100% kiln dried in-house, the AMFLite II is the most durable and highest scoring pin in the business. It's patented lock-in nylon base stays in place for the life of the pin. Compression molding using a superior grade of Surlyn, allows a thinner coating and large core, which results in better scoring and fewer neck fractures. QubicaAMF's customized topcoating process offers better performance in all machines, improved appearance, and a longer lasting pin. The AMFLite II has established standards that remain the highest in the industry, and the manufacturer's warranty guarantees complete customer satisfaction.

THE STANDARD of excellence all other pins ARE MEASURED AGAINST.
